

Troop 41 Web Site

Members only access and Google Accounts

Much of what we are putting on the web site just concerns members of Troop 41 and their families. It is therefore felt that this information should be restricted to the troop only. Since this web site has been created using free tools from Google, to implement restricted access we have taken advantage of the security features provided by Google. Access to the member's only area requires that the user has a Google Account and has requested access to this web site via that Google Account.

Google provides many useful free tools for those who sign up for a Google account. Note that signing up for a Google account does not require you to create a separate gmail address – you can sign-up for a Google account with whatever email address you choose.

For those who don't have a Google account and would like to sign up for one before they request access to the members area of the troop web site, they can go to www.google.com and click on **Sign in** located in the upper right hand corner. Follow the links on the following pages to create an account. After that you need to request access to the site.

To request access to the site you must submit your name, scouts name and Google account email address. Email this information to troop41npt@gmail.com or click on **Request Registration** on the home page . Within the next few days you should receive an email with an invitation to visit the site.

If you have any questions or comments just email them to troop41npt@gmail.com . Remember feedback both positive and negative is helpful.

The starting homepage is <http://www.troop41npt.org/>
